

A VERDICT REACHED**IN LUDUC SHOOTING CASE**

Klumbies and Spannel Acquitted and Marianowski Found Guilty of Manslaughter and Sentenced to Fourteen Years in Stony Mountain Penitentiary

The hearing of the case, King vs. Marianowski, Spanel and Klumbies on a charge of murder was continued at the Supreme Court before Chief Justice Sifton all day yesterday. The court room was crowded from the opening of the court in the morning until almost midnight when the jury returned their verdict.

Jas. F. Findley and Martin Burger were the only two witnesses called by the crown yesterday morning. The defence then put Marianowski, the man who fired the shot that caused the death of Reij, into the witness box and elicited his story of the fatality. The firing of the shot was admitted and the plea was that Marianowski had intended to fire into the air and that the gun had accidentally discharged with the fatal results.

Almost the whole of yesterday afternoon was taken up with the advocates for the defence, and the crown prosecutor addressing the jury. The Chief Justice charged the jury who then retired. They did not arrive at a decision until about eleven o'clock at night. The verdict acquitted Klumbies and Spannel, and found Marianowski guilty of manslaughter. He has not yet been sentenced.

The counsel for the defence in this case was N. D. Mills for Marianowski, O. M. Biggar for Spannel and J. C. F. Down for Klumbies.

Marianowski came up for sentence this afternoon at 2 o'clock and was sentenced to fourteen years in Stony Mountain Penitentiary.

While the jury in the King vs. Marianowski, Klumbies and Spannel case were out, the case in reference to the extradition of J. Webster Lewis was heard. Pond, of the Pinkerton detective agency was put in the witness box and gave his story of the crime, of which Lewis is charged. The evidence went to show that Lewis had been employed in a bank in Rowles, South Dakota, and that while there about \$2600 in gold had been taken from the bank. He had been shadowed by Pond, who was put in charge of the case at that time and is said to have later confessed to the taking of the money. The total sum taken was paid to the bank officers by Lewis, who, charged with the offence, was released on bail. He left Dakota and came to Edmonton where he has been for a number of months. The

police authorities of that State wired Chief Dean, Edmonton, to arrest and hold Lewis, which he did.

The story of the crime as told by Pond, the detective, was followed with a great deal of interest in the court. The Chief Justice remanded Lewis for extradition.

JAPANESE DEFEATS**REPORTED FROM MUKDEN**

Unofficial report from Tokio and states

The Japs have secured a great advantage at Port Arthur

With the Russian Forces at Shengking, November 29.—The fight of the Japanese with General Rennenkampf's cossacks, which began on November 24, ended at six p.m. on November 28. The Japanese, who were repulsed, never approached nearer than 600 yards. During a snow-storm at mid day on the 28th, the Japanese tried to flank the Russian right, but the rifles and four guns forced them to retreat. The Russian losses were small. On November 27 the Russian scouts captured Nangamene village, and held it while the sappers blew up a large stone house which had served as a fortress, from which the Japanese sniped at the Russian outposts. Another despatch indicates the progress of the Japanese in the direction of Port Arthur. Japanese here explain the great importance of the capture of 203 meter hill, which, besides giving command of the harbor, serves as a wide breach made by the wedge that the Japanese had previously driven in between the Eto group and Elets group.

HOCKEY NOTES

Hockey enthusiasts in Edmonton are generally pleased that the club has decided to take over the management of the rink during the winter. Slightly better arrangements have been made with the rink management than were previously announced.

The hockey club will have complete charge of the rink, but skaters will have just as many evenings, and allowed just as long on the ice as if it were under private management. An effort will be put forward to fit up the rink with all the latest conveniences; splendide will be provided, and the most suitable hours for skating arranged for. The convenience and pleasure of ticket holders will be carefully looked after, and everything possible done to make the rink even more popular than it has been previously. The afternoon hours will be arranged so as to suit the school children who wish to patronize the rink. It is also the intention of the committee to have stands for the sale of lunches and hot drinks in the rink. This has been suggested, not as a money making scheme, but in order to suit the convenience of the patrons of the rink.

In past winters carnivals have not been as successful as they might be. The public have been slow in catching the spirit of the carnivals, and at times good close competition has been lacking for the various prizes. An effort will be made to make carnivals a feature of the season. They will probably be held one a month for the four months of the season. Good prizes will be offered, and ample notice will be given to enable all interested to prepare suitable costumes worthy of prize money.

Regarding hockey, the Thistle Hockey Club can promise the hockey loving people of Edmonton a splendid winter's sport. Starting at home, Stratheona has high hopes of winning victories this year. The best of their last year's team are still with them, and considerable new and expert material has recently arrived in our sister city. Humeson, Edmonton's goal keeper last year, will this year play with Stratheona. He will be a decided acquisition to their team, for the Stratheona team were very noticeably weak in the net last year. The usual series of home games between the two old rivals, are being looked forward to with a great deal of interest. Wetaskiwin and Lacombe are said to be planning a surprise on the northern cities, having first-class hockey teams who are already looking forward to contesting one or more championships with Edmonton, Calgary and Medicine Hat are almost sure to take a trip to Edmonton this winter, especially in view of the local hockey team being in a position to make them a good proposition regarding guarantees. Both these teams, and also Regina and Moose Jaw are reported to be casting envious eyes on the Second Shield, emblematical of the championship of the Territories. The Winnipeg Intermediate Victorias have definitely decided to take a trip to Edmonton and the Klondyke Hockey Club, in quest of the Stanley Cup, will probably visit Edmonton on their way back from

the east. All this promises the hockey enthusiasts of Edmonton a splendid season's sport.

No less ambitious is the program of the Junior Thistles, the boys who won credit for themselves last winter. They are looking forward to a series of good games with neighboring teams, besides with Calgary, which team is planning for a visit to Edmonton.

The committee who have charge of the arrangements have had several meetings lately. Philip Shaver has been secured as caretaker, and ice man, and a better man for the position it would be hard to find. J. C. Griffith has been appointed manager, and P. C. Old as secretary. The executive committee, from whom besides the secretary, tickets may be obtained, are John Sommerville, Dr. Strong, L. Goodridge, Dr. Reid and Jos. A. McKinnon. The co-operation of all the citizens interested in winter sports is requested, so as to make the approaching season an eminently successful one.

WEDNESDAY, NOVEMBER 30th

CHOOSING A CANDIDATE

In view of the Convention to be held on Saturday, November 3rd, to choose a candidate for the representation of the Edmonton district in the Assembly, the letters signed "Voter" appearing in Saturday's issue, under the heading "Choosing a Candidate," are of special interest.

While it is altogether desirable that there should be the fullest and freest discussion preliminary to the choice of a candidate, it is to be feared that "Voter" scarcely takes the best point of view when he holds out the idea of a necessary division between town and country in that choice. The election of a representative, although the conferring of an honor, is not merely that. It means work to be done, as well as honor to be attained, and the main question is not so much, upon whom shall the honor be conferred as who shall be called upon as best qualified to do the work.

If it is a fact, as it is, that the city is absolutely dependant on the farm, it must equally be a fact that the city is interested in the progress and success of the farm in the matter of roads, as well as in other things, so that there does not seem to be any necessary division between town and country in that connection. The town has nothing to get from the North-west Government in the way of road improvements, and therefore, if that side of the question is put forward, the town representative is less liable to be affected by personal or local interests than one chosen from the country.

It is rather a pity that the idea of a division of interests should be fostered at this stage of the proceedings because the nomination of a candidate does not necessarily mean his election. It is very easy to make divisions at the nomination which result in disaster at the election. Instead of pointing out how the claims of one section of the country can be recognized, necessarily at the expense of other sections, it would be better to try and find common standing ground. The choice of a candidate may very well be left to the convention, which has been called in a most open and above-board manner, and in which all parties and sections entitled are given full voice. The convention is supposed to be a coming together of men having a community of idea and interest regarding Territorial questions for the purpose of electing a representative who will voice the ideas and protect the interests. If the main purpose of the calling the convention is lost sight of in a scramble for the honors, it had been better that it had not been called at all. The convention means, if it means anything, that those who go into it will stand by its decision, but of course there is nothing binding, and if people interested in the convention divide about matters of detail before it is held, there will be a tendency not to stand by the decision when it is reached.

The central idea in calling the convention was to secure the election of a representative whose election would be a protest against the assumption, not to say presumption, of Premier Haultain in refusing to accept the \$250,000 offered by the Dominion Government for expenditure on North-west roads, and his evident willing-

ness to use the question of Provincial Autonomy for Conservative party purposes. If the question of good roads is the main question to be settled by the election, then the question of money for the roads depends on the endorsement or condemnation of the policy pursued for the past year or two by the Territorial Premier. It is more important to us that we elect a man who will stand for the best interests of the Territories in our financial arrangements with the Dominion than that we should elect one who would be pledged to secure the repair of a certain piece of road, no matter how important that road might be, for, unless the money is procured, the road can not be fixed. If the \$250,000 offered by the Dominion Government had been accepted, the base line road, the St. Albert and Morinville road, the Landing trail and the road from Fort Saskatchewan to Whitford might have been put in good condition; but when that money was refused as a matter of policy by the Territorial Premier and the local representatives of the districts affected, all the good will in the world did not make it possible to have the roads repaired; and if when Provincial Autonomy arrangements are made the financial terms are restricted, as they may very well be if the people of the Territories are not properly represented in the local Assembly, there will be another case of roads to mend, and no money to mend them with, except what is taken out of the pockets of the people in direct taxes. We want to be sure that we are properly and adequately represented on the subject of Provincial Autonomy and the financial arrangements attached thereto, in place of dividing as to whether an honor should be carried by a man in the country or a man in the town, or whether one piece of road or another should be repaired. The Autonomy issue is of overshadowing importance at the forthcoming Territorial election, and should not be lost sight of in the discussion of minor issues.

Naval Training School Accident

Portsmouth, Eng., November 28.—

A singular accident resulting in the death of two men and injuries to a number of others occurred in Portsmouth harbor. Two launches belonging to the British Torpedo Schoolship Vernon were engaged in an instructional course of sweeping the harbor for mines when suddenly an explosion occurred on board one of the launches which immediately sank. Those who were on board of her were drawn into the icy water and were rescued with difficulty. Two are missing and several more were seriously hurt by flying debris. The second launch was so seriously damaged that it sank later.

Perfect Protection against Northwest Winters

Ordinary underwear is made for ordinary climates. Most makers can't appreciate the intense cold of the Northwest. Their garments are all right for freezing weather, but entirely too light for 30 to 50 below zero.

Stanfield's Unshrinkable Underwear

is knitted in special weights, especially for the severe winters of this section. It's planned by men who know the climate and the people—know exactly what they want—know how to knit it thick enough for warmth, yet not too heavy for comfort.

Best of all—Stanfield's is guaranteed absolutely unshrinkable. All sizes to perfectly fit every figure. Leading dealers throughout the west sell Stanfield's.

MUNICIPAL AFFAIRS

DISCUSSED AT PUBLIC MEETING

Members of the Council Give Record of Their Administration. New Candidates Heard

There was a good attendance of ratepayers in Robertson Hall last evening at the public meeting called to discuss municipal questions. Mayor Short was voted to the chair, and Councillors May, Picard and Cushing occupied seats on the platform. After briefly mentioning the purpose of the meeting, Mayor Short called upon Councillor May, chairman of the Board of Works Committee. Councillor May referred to the extension of the sidewalks within the municipality, there having been about seven and a half miles of sidewalk constructed this year. Little had been done in the matter of permanent street improvements, chiefly owing to the fact that the waterworks connections have not yet all been laid, along the main street, and that from settling and other causes the streets have been at times very uneven. The work of the committee was chiefly taken up with keeping the streets in repair. Mr. May thought that the ground should have been purchased for a city hall site, and for park purposes. During the year city offices have been constructed at a cost of about \$12,000.

Councillor Picard, chairman of the Health and Relief Committee, and also chairman of the temporary committee having in charge the eastern extension and deflection of Jasper avenue was next heard. He dealt briefly with the extension of Jasper avenue. There was a numerously signed petition asking that this work be carried out. The town's share of the expenses in connection with this is \$8,000. Interested parties in the east side of the town had raised \$1,200 by private subscription. The work was of great advantage to the town at large. Dealing with the Street Railway agreement, he said that if elected, and he intended to stand for re-election, he would certainly not be a party to granting any extension of time in which to carry out their agreement. In regard to the new scheme of taxation of lands, he believed that the owners of buildings should be taxed to keep the fire brigade, which existed for their safety, in an efficient condition.

Councillor May then briefly addressed the meeting in connection with his stand on the street railway question. He would absolutely oppose any extension of time.

Councillor Cushing, chairman of the Finance Committee, was the next speaker. He first dealt with the matter of assessment. In the last year the building and stock was assessed at about fifty per cent. of their value, and the land assessment increased, working towards the method of taxation under the city charter. In each case the assessor's valuation of property was much less than the valuation that the owner placed upon them. Some of the new lands taken into the city would this year bear their share of taxes. The low rate of taxation, 17 mills and 15 mills, showed that the town's finances had been economically managed. Some objection had been taken to the three mill rate for waterworks. In the beginning of the operation the expenses are relatively high, and the three per cent levy is justifiable on account of the increased fire protection afforded the city by the installation of the new system. The electric light rates were very low, and a splendid plant is being installed. He was strongly in favor of the streets being brilliantly lighted. The waterworks service is most efficient and the rates as low as is consistent with the great primary cost

of the installation of the system. During the year the city had sold debentures on good terms to the extent of \$250,000. This year a debenture indebtedness of \$130,000 had been added. The West End sewerage system will be constructed forthwith.

Mayor Short gave a brief resume of the work of the three years during which he has been Mayor. Edmonton is now a city of some six thousand people, with more business transacted and with larger and better municipal enterprises than more pretentious cities. During the three years over sixteen miles of sidewalk; eight and one half miles of waterworks and six and one half miles of sewers had been laid. A municipal electric light plant had also been started and the result has justified the enterprise. Much cheaper rates are in vogue than in other western cities with privately controlled electric light plants. The rapid growth of the town had demanded large extensions of the waterworks and sewerage systems. There were 117 services installed this year as against 107 for the previous two years. The sanitary effects of the installation of the system, were dealt with. Referring to railway matters, a good agreement had been arrived at with the Canadian Northern Railway Company and now there was a further agreement with the Grand Trunk Pacific to be arrived at. New city offices had been constructed. The chief provisions of the new city charter were discussed. Henceforth the government of the city would be in the hands of commissioners, paid officials. This system and that of the taxation of lands and not of buildings was being adopted by progressive cities elsewhere. The council had thought well to purchase the Edmonton District Telephone Company and the citizens would be given an opportunity of declaring for or against this purchase at an early date. He had always been opposed to the street railway agreement. After calling on the ratepayers to send good men to the council board Mr. Short resumed his seat and was accorded hearty applause.

K. W. McKenzie, candidate for the mayoralty, was called upon and briefly referred to the Government of the city under the new charter and to the responsibility that would be placed on this year's council. He promised, if elected, to do the best for the city's interests.

J. B. Brenton thought that the retiring mayor should be given some tangible evidence of the appreciation of the citizens for his labors as mayor. Councillor Cushing moved a hearty vote of thanks which was attested to by the audience singing "For He's a Jolly Good Fellow."

J. B. Boyle stated that he was a candidate for alderman and, if elected would do all in his power to further the best interests of the city. The provisions of the new charter appear to be very radical and some of them may require amending. He was pleased that the council had altered the clause with respect to the tenure of office of the commissioners. Taxation should be fairly and equitably divided. He had been opposed to the street railway agreement from the first and, if elected, would see that the street railway company be compelled to live up to the last provision of their agreement.

W. A. Griesbach, another candidate for alderman, next addressed the meeting. He had come to Edmonton as a boy, had grown up with the town and now sought to become an alderman. He pledged himself to support the policy of municipal ownership and as a special plank in his platform would, if elected, do everything possible to increase the efficiency of the fire department. He believed in strict economy, consistent with maintaining the city's enterprises on the best possible footing.

Geo. Mannel, while not a candidate for the council, regretted more of our successful business men did not offer themselves as candidates. He was

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Classes 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres sub-tenanted.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

radically opposed to the street railway agreement and would be strongly in favor of holding the company to the last provision of their agreement. He believed that the waterworks and sewer system, especially that along the main streets is of insufficient capacity, the growth of the city being considered.

W. J. Webster thought that a scheme of street naming and house numbering should be immediately carried out, and that Edmonton should soon be given a free letter delivery.

After further opportunity had been given to prospective candidates for the new council to deliver addresses, and none coming forward, the meeting broke up.

NOTICE.

NOTICE is hereby given that in accordance with the provisions of the North-West Irrigation act, the Canadian Pacific Railway Company has filed the memorials and plans required by the said act with the Commissioner of Public Works at Regina. The applicant applies for the right to divert one-sixteenth of one cubic foot of water per second from the west quarter of section 10, township 47, range 24, west of the 4th meridian, for domestic purposes, as shown by the plans and memorials. To enable the water so diverted to be used for the said domestic purposes, on the following lands, viz. the right of way of the Company and in their tanks, engines, cars and buildings, the following lands outside the company's property being affected by the proposed works, Nil.

QUEBEC ELECTIONS

The provincial elections in the province of Quebec took place on Friday last. In the last parliament the opposition sent seven members. The leader, owing to the outlook this time called upon his following not to nominate candidates, but thirteen straight party candidates were brought out, only five of whom have been elected. Among the Liberal members are several who defeated government candidates. In Montreal two Parent cabinet ministers, Rainville and Dr. Guerin, were beaten. Of the five Montreal constituencies two went straight Liberal, two Independent Liberal, and one Independent. The Conservatives did not run a candidate. The Labor candidates were all snowed under. The returns show 62 Liberals, 6 Conservatives, 4 Independent Liberals. Two elections are yet to be held, Gaspe and Magdalen.

The following are the results by constituencies:

FAT STOCK SHOW FOR THE TERRITORIES

The Territorial Department of Agriculture is arranging to hold a number of live stock judging schools throughout the Territories during the coming winter, concluding the series with two or more large meetings at central points, one in the West and one in the east, probably Calgary or Regina. In order to make these two large meetings more complete, and to provide a wide range of animals for use in demonstration lessons, it has been decided to hold a fat stock show in connection with each of them. The Commissioner of Agriculture believes that the time has come when fat stock shows can be successfully held. The idea is to start them in a small way, and allow them to expand from year to year, as circumstances permit. It is not the Department's intention at these winter shows to duplicate the prizes offered at summer fairs, on the contrary the prizes will be limited to fat stock, the object being to encourage winter fattening. The full classification and exact amount of prize-money to be offered has not been finally decided upon as yet, but for the information of those who have put up stock to fatten, or who may yet do so, it may be stated that there will be the classes for the following:

Fat steer, three years old and over.
Fat steer, two years old and under three.
Fat steer, one year old and under two.
Fat heifer, three years old and over.
Fat heifer, three years old and under three.
Fat heifer, two years old and under two.

Fat cow.

In all classes a first prize of not less than \$25.00 will be offered, with suitable succeeding ones receiving out the fourth and fifth places. In swine equally substantial prizes will be offered for:

Best pen of three barrows, suitable for bacon purposes, and to weigh between 180 and 220 pounds.

Best pen of three sows suitable for bacon purposes, and to weigh between 180 and 220 pounds.

In order to put all feeders upon an equal footing it is the intention to have all animals collected at a nominal rate on much the same plan as bulls are taken to the annual bull sale at Calgary. Thus it would not cost the man who is at the farthest point from the place the show is held, any more to ship his animal or animals than one close by. The fundamental idea underlying this work is the educational, and in order that every opportunity may be offered those who attend to learn, ample accommodation will be provided, the seats will be arranged in amphitheatre form, so that all can see the judging and the animals while illustrated lectures are being given. Definite dates for the shows have not been fixed, but the show for Eastern Assiniboia will likely be held the third or fourth week of March, while that for Alberta may be a little later. If the date is not too late, a show of five poultry could be combined with it also, and a fair for seed grain. The Commissioner of Agriculture invites the loyal co-operation of all interested in the advancement of Territorial agriculture, to make the shows a great success. The meetings to be held at the same time will be addressed by leading experts in various lines, and they should be the very best of the year. Fuller particulars will be issued at a later date.

BECAUSE PROPERLY CURED

MY Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

Violin Solo (a) "Traumerel," (b) "Mazurka," Miss Essie Phillips.
Solo, "The Vesper Prayer," Mr. Dell Wilson.
Bass Solo, "Abide With Me," C. W. Willis.
Anthem, "Father, Keep Us in Thy Care," Choir.
"God Save the King."

A collection was taken up in aid of the choir fund. At the close of the concert the ladies of the congregation entertained the members of the choir and the ushers at a tea in the lecture room of the church.

Killing Smut in Wheat

Nor-West Farmer:
Subscriber, Edmonton, Alta.—"Last spring I sowed wheat on new break-

ing. There was a little smut in the seed that I sowed, but I treated it with bluestone, one pound to eight bushels of wheat, and when my wheat was ripe I found there was some smut in it. If I sow wheat free from smut, but treated with bluestone, on the same ground next year, will I likely have smut in the crop?

Answer—You have either made your bluestone solution too weak, or failed to give the grains such thorough treatment as would spread it completely over every part of the surface of the kernels. If you sow seed next spring which is free from smut your crop will show practically no smut, although a stray head may appear here and there, due to infection from spores remaining upon the ground. These cannot, however, prove a very fruitful source of trouble.
